

CURRICULUM

Correct waste management identifies, as is known, a complex system of operations, the success of which is closely correlated with the professionalism used to achieve the set objectives. For these reasons ESPER (Study Body for Eco-sustainable Waste Planning) was born and operates as a research body which includes professionals who boast many years of experience in the various and complementary disciplines they belong to. All activities are carried out exclusively on behalf of public bodies or companies controlled by public bodies and concern in particular the planning of integrated separate waste collection services as well as the preparatory documents for the start-up of these services (specifications, technical specifications and calls for tenders, charter of services, area and municipal regulations, communication projects, etc.), support for the implementation of the incentive tariff for waste managing, the drafting of planning tools (Regional or Area Plans, Strategic Environmental Assessment procedures), the drafting of research and projects in the field of Circular Economy and the reduction of MSW production. The technical structure also takes care of all the activities relating to the Directorate for the execution of urban hygiene contracts (DEC). The technical-economic analyzes developed in the planning activity were elaborated to develop the SCSi software patented at European level by ESPER for the detailed planning of the integrated municipal waste management services. This software was selected by Regional Agency for the Environmental Protection of Veneto on behalf of National Agency for the Environmental Protection (now ISPRA 1) for the simulation of collection costs for macro territorial areas (Optimal Territorial Authority, Provinces, Regions, etc.) and to allow an accurate and timely definition of collection costs every single fraction of waste and the elaboration of technical-economic and management scenarios such as to allow the competent bodies and offices to make decisions with greater awareness in terms of: operational choices, service optimisation, service costs and expected results. ESPER, operating as a technical partner of the Association of Virtuous Municipalities for the waste sector, has drafted and published free of charge the following in-depth volumes on specific environmental issues identified together with the Association of Virtuous Municipalities:

- the book " *Towards a truly circular economy* " is available at this link: http://esper.it/wp-content/uploads/2018/12/Verso_un_Economia_realmente_Circolare_ACV_ESPER.pdf
- the volume " *20 years of packaging management: what has been done, what remains to be done* " is available at this link: https://esper.it/wp-content/uploads/2018/01/20_anni_gestione_imballaggi_pro.pdf
- the volume " *10 virtuous European paths towards incentive tariff for waste management* " is available at this link: https://esper.it/wp-content/uploads/2017/02/10_percorsi_TP_web.pdf
- the volume " *10 Virtuous Paths towards Reduction, Reuse, Recycling and Incentive Tariffing* " is available in this link: https://esper.it/wp-content/uploads/2016/11/Esper_completo_low_nov2016.pdf

ESPER has also financed the creation of a documentary in collaboration with the writer Paolo Rumiz that anyone can use freely (we have purchased and released the copyrights and anyone can therefore view it at this link <https://esper.it/2020/01/21/sogni-comuni/>) in which citizens and administrators talk about their own virtuous experiences (we point out in particular the experience of the Municipality of Modugno which was the first large Municipality in central-southern Italy to apply incentive tariff for waste management with the ESPER technical support). ESPER is carrying out research activities ²on behalf of the Ministry of the Environment in partnership with the National Research Centre and ISMN (Institute for the Study of Nanostructured Materials) and IIA (Institute for Atmospheric Pollution). From 1/06/2022 ESPER, pursuant to and by effect of the Law of 208/2015, has amended its statute becoming a **Benefit Society**, undertaking to allocate at least 10% of its profits each year to pursue a measurable social value, with particular regard to environmental protection, specifically through an ever-increasing diffusion of good practices in the sector the reduction, reuse and recycling of waste through the organization of seminars and conferences, the free publication and dissemination of the related studies, research and newsletters.

¹The description of the software was reported in the volume " *Technical-economic analysis of integrated management of RU* " published by ISPRA (see link <http://www.isprambiente.gov.it/it/pubblicazioni/rapporti/analisi-tecnico-economica-della-gestione-integrata>)

²see link <http://www.progettoplasmare.it/progetto/>

Province of Varese

- 2005-07 1st assignment - update of the Provincial Waste Management Plan, Strategic Environmental Assessment drafting and support for the monitoring and application of the Plan.
- 2006-07 2nd assignment - drafting of the Provincial Special Waste Management Plan and VAS integration in relation to the Special Waste sector.
- 2008-10 3rd assignment - realization of the cartography of the unsuitable areas and the drafting of the incidence study of the suitable areas of the PPGR.
- 2009-10 4th assignment - integration of the PPGR with the deepening of the economic-financial analysis and the estimation of the costs of the RU recovery and treatment operations as well as updating of the Environmental Report and the Impact Study of the Strategic Environmental Assessment.

Customer address: **Via Pasubio n. 6 – 21100 Varese Tel 0332/252757**

Reference: **Director of the Environment Service Dott.sa Susanna Capogna**

Province of Savona

- 2005-07 1st assignment - update of the Provincial Waste Management Plan, Strategic Environmental Assessment drafting and support for the monitoring and application of the Plan.
- 2007 2nd assignment - Drafting of a study for the choice of technology for the production of RDF for the construction of a plant in the Province of Savona and of a project proposal to be submitted to CONAI for the request for co-financing of activities relating to communication and reduction some waste.
- 2008-11 3rd assignment - Design and monitoring of integrated home waste collection in 4 Municipalities of the Province and management of a specific refresher course for the design of home waste collection services aimed at technicians of the municipal administrations of the Province of Savona through the use of software patented by Esper.

Customer address: **Via Sormano, 12, Savona (SV) – Tel. +39 +39019 83131**

Reference: **Director of the Environment Service Ing. Vincenzo Gareri**

Municipality of Trento

- 2005-07 1st assignment - Design of a new separate waste collection service for the city of Trento and technical support for the start-up of the service. Design of initiatives and strategies for the prevention and reduction of urban waste production.

Customer address: **Via Belenzani, 19 3810 Trento Tel. +39 +39 0461-884946**

Reference: **Director of the Environment Service Dr. Giovanni Segatta**

Municipality of Asti

- 2006-07 Assignment for the technical assistance to the municipal administration and the monitoring, the verification of the application of the tariff and of the methods of carrying out the service for the optimization of the management.

Customer address: **P.zza San Secondo 1 14100 Asti Tel. +39 +39 0141-399443**

Reference: **Waste service manager Dott.sa Rita Vavalle**

Province of Alexandria

- 2005-07 1st assignment - consultancy for the drafting of the new Provincial Plan and for the launch of incentive projects for municipalities in the field of differentiated waste collection (activity carried out by ESPER in the name and on behalf of IPLA Spa of Turin).

Customer address: **Corso Casale 476 10132 TO, Tel. +39 +39 011-8998933**

References: **Director of the Dept. Amb . Prov. of Alessandria Ing. Claudio Coffano (Tel. +39 +39 0131-304565).**

Province of Rome Capital City

- 2005-06 1st assignment - consultancy for the start-up of advanced waste management systems and technical assistance to municipal administrations in the field of waste management (activity carried out by ESPER as sole manager in the name and on behalf of the Agricultural School of Park of Monza).
- 2006-08 2nd task - provision of an unlimited user license to the Provincial Administration of a software patented at European level designed to correctly size the home and roadside collection service, updating and adaptation of the software to specific requests from the provincial administration and training in the use

of the software both for the operators of the Province and for the technicians of the Municipalities and Consortia of the Province .

- 2007-08 3rd assignment - consultancy for the start-up of advanced waste management systems and technical assistance in the analysis and evaluation phase of municipal projects for home waste collection.
- 2008-09 4th assignment - support and technical assistance to the Municipalities in the phase of presentation of the home waste collection projects and to the province in the phase of project evaluation.
- 2010-12 5th assignment - support and technical assistance for the realization of the Traceability Project and verification of the urban and similar waste flow chain.
- 2011 6th assignment - support and technical assistance in the phase of optimizing services in Municipalities that have started door-to-door waste collection .
- 2013-14 7th assignment - drafting of the study entitled "Analysis of waste collection systems in the historic centres of the provincial capitals, in the municipalities with a tourist vocation and which have applied the incentive tariff for waste management"

Customer address: **Via IV Novembre 149 0187 Rome Capital City**

Reference: **Manager of the Waste Service Ing. Claudio Vesselli**

Amiu Spa of Bari (entirely public company)

- 2005-06 1st assignment - Design of a new home differentiated waste collection service for the city of Bari (activity carried out by ESPER as sole responsible for the order in the name and on behalf of the SAPM).

Customer address: **Viale Cavriga 3 20052 Monza, tel 039-2302979**

References: **Director of SAPM Dott.sa Antonella Pacilli and the President of AMIU Dott. Giuseppe Savino**

CIR 33 Consortium of Jesi (AN)

- 2005-06 Assignment for the drafting of the industrial plan and for the technical assistance for the start-up of the composting and RDF production plants (activity carried out by ESPER as sole responsible for the order on behalf of S.A.P.M. (acronym Scuola Agraria del Parco di Monza).

Customer address: **Viale Cavriga 3 20052 Monza, tel 039-2302979**

References: **Director of the SAPM Dott.sa Antonella Pacilli and the Director of the CIR33 Consortium Dott.sa Laura Filonzi**

AMIU Spa of Alessandria (entirely public company):

- 2005-07 1st assignment - technical support to the AMIU of Alessandria for the design of a first lot and the subsequent extension of the door-to-door service as well as for the monitoring and optimization of the service (activity carried out by ESPER as sole responsible for the order on behalf of the SAPM).

Customer address: **Viale Cavriga 3 20052 Monza, tel 039-2302979**

References: **Director of SAPM Dott.sa Antonella Pacilli and the President of AMIU Dott. Giorgio Bertolo**

AMA Spa in Rome Capital City (entirely public company):

- 2006-07 1st assignment - preparation of a comparative study on the most advanced experiences of RD management in European and Italian metropolises and definition of a preliminary project proposal for the experimentation of home collection in the Municipality of Rome Capital City.
- 2006-07 2nd assignment - support for the drafting of the executive project for door-to-door waste collection in three districts of the City of Rome, supply of the license to use a calculation model patented by ESPER to evaluate the different types of service and possible service scenarios in the territories subject to experimentation and finally planning and supervision the communication activities that will accompany the launch of the services.
- 2007-08 3rd assignment - support for the monitoring and verification of the results obtained in the first three districts involved in the experimentation of the door-to-door service and support for the drafting of the executive project for the extension of the door-to-door collection in the City of Rome.

Customer address: **Via Calderon della Barca, 87 – 00142 Rome Capital City Tel 06-51695196**

Reference: **RD Division Director Ing. Pietro Zotti**

Province of Parma and then Area Agency for the management of the RU of the Province of Parma:

- 2005-07 1st assignment - consultancy for the launch of advanced HR management systems and the monitoring of the implementation and of the Plan (activity carried out by ESPER as sole responsible for the order in the name and on behalf of the Monza Park Agricultural School).
- 2008-09 2nd assignment - Drafting of the Area Plan for the management of RD and street sweeping services preparatory to the definition of the reference tariffs for awarding the service. The activity includes the drafting of the Service Charter and support regulations for the management of services and tariffs.
- 2010 3rd assignment - Drafting of the executive project of the urban hygiene service and drafting of the tender documents for the assignment of services in the Montano Ovest sub-area.
- 2011-2012 4th assignment - technical support for the updating of the HR management Area Plan, monitoring and verifying the functionality of the services provided in the individual local realities in order to identify the critical issues and the necessary corrective actions;
- 2012-13 5th assignment - Technical support to the project for the implementation of incentive tariff for waste management and computerization of the Municipal Collection Centres, monitoring and verification of the experiences activated in order to identify the critical issues and the necessary corrective actions.

Customer address: **Piazzale Barezzi , 3 - 43100 Parma Tel. +39 0521 532615**

Reference: **Waste sector manager Arch. Aldo Spina**

Municipality of Parma

- 2011 Assignment for the executive design of new technologies and devices aimed at applying incentive pricing for waste collection, at the end of the integrated HR management project.

Customer address: **Str. Repubblica 1, Parma Tel 0521-218689**

Reference: **Director of the waste service Ing. Alessandro Angella**

ATO (Optimal Territorial Authority) of Savona (entirely public company):

- 2006-07 1st assignment - drafting of an Operational Program for the integrated management of the collection, transport and sweeping, for the interception and recovery of biodegradable urban waste, constituting a functional excerpt from the Intervention Plan of the Waste ATO. Technical support for the design of ecological stations also through the drafting of standard specifications, price lists, bills of quantities, etc. and detailed assessment of the construction and management costs of the SEs using specifically prepared calculation models.

Customer address: **Via Cadorna, 7 – 17100 Savona Tel 019-2302229**

Reference: **Director of the ATO Ing. Vincenzo Gareri**

C.B.R.A. Consorzio di bacino rifiuti Astigiano (Public Consortium of the Province of Asti):

- 2006-08 1st assignment - drafting of an Integrated Management Operating Program for waste reduction and the reorganization of collection, transport and sweeping through the preparation of the preparatory documentation for the completion of the tenders for the assignment of the service by the Consortium. Support for the structuring of the Observatory.
- 2009-10 2nd assignment - technical support for the drafting of calls for tenders for the assignment of waste collection and street sweeping services, resolution of problems concerning the management of calls for tenders, support for the use and adaptation of the latest version of the SCSi software.
- 2014-17 3rd assignment - technical support for the implementation of the incentive tariff for waste collection as well as supply and support in the use of the latest version of the SCSi software.
- 2018-20 4th assignment: drafting of the Industrial Plan and related tender documents for the optimization of the urban hygiene service, assistance to the RUP during the tender phase and the implementation of the incentive tariff for waste collection as well as supply.

Customer address: **Via Brofferio 83 14100 ASTI Tel. +39 0141-091000**

Reference: **Technical Director Ing. Piercarlo Udo**

Municipality of Savona:

- 2007 1st assignment - Design of a new separate waste collection service for the City of Savona and technical support for the start of the service.

Reference: **Director of the Environment Service Dr. Luciano Campagnolo**

2008-09 2nd assignment - Comparative study of various economic technical proposals for the reorganization of the service and technical support for the drafting of management regulations.

Reference: **Director of the Environment Service Arch. Giovanna Macario**

Customer address: **Corso Italia, 19 17100 Savona Tel. +39 019-8310624**

University of Roma Tre – Faculty of Engineering

2007 Assignment - drafting of a manual for the design of home separate waste collection and technical support for the start-up activities of home separate waste collection in the municipalities of the Province of Rome

Customer address: **Roma Tre University – Dept. of Engineering Via Volterra n. 62 Rome Capital City**

Reference: **Project coordinator Prof. Gian Mario Baruchello**

Ragusa ATO (Optimal Territorial Authority):

2007-08 1st assignment - technical support for the tender procedure for the assignment of urban hygiene services, updating of the communication plan and municipal plans for the RD.

2009-10 2nd assignment - Technical consultancy support for the drafting of the tender specifications and tender specifications for the Municipalities of Vittoria and Modica

2009-10 3rd assignment - Technical consultancy support for the drafting of the standard regulation and the DUVRI relating to the tender documents for the Municipalities of Vittoria and Modica and supply of an unlimited use license to the ATO of a software patented at European level designed to correctly dimensioning the home and roadside collection service and training in the use of the software for ATO technicians

2010 4th assignment - Technical consultancy support for the drafting of the tender documents for the Municipalities of Acate, Chiamonte, Comiso, Giarratana, Monterosso, Scicli and Santacroce

Customer address: **Viale dei Platani 34/b 97100 RAGUSA Tel 0932-686237**

Reference: **Technical Director Dr. Fabio Ferreri**

Province of Frosinone

2007-08 Consultancy assignment for the launch of advanced waste management systems and technical assistance to municipal administrations in the field of waste management and supply of a patented software at European level designed to correctly size the home collection service and road traffic and training in the use of the software both for the operators of the Province and for the technicians of the Municipalities and Consortia of the Province of Frosinone.

Customer address: **Piazza A. Gramsci, 13 03100 Frosinone Tel. +39 0775-836841**

Reference: **Environment Service Director Ing. Serafino Colasanti**

Trentino Servizi Spa (entirely public company):

2007-08 1st assignment - verification and optimization of the home collection experimentation in the Gardolo and Meano districts with particular reference to the communication activities carried out. Support for the planning of the extension of the new separate waste collection service for the entire city of Trento.

2008-10 2nd assignment - identification of operational proposals for the application of incentive tariff for waste collection and the best solutions to solve the specific problems of the historical centre. Support for the use and adaptation of the software patented by ESPER for which an unlimited license is provided for the definition of various hypotheses for the reorganization of the service on the lots already activated and of organizational hypotheses for the new areas still to be activated. General advice on any problems in the service extension phase.

Customer address: **Via Ferina, 23 38100 Trento Tel. +39 0461 362269**

Reference: **General Manager Ing. Carlo Realis Luc**

ARPAV Veneto (Regional Agency for the Environmental Protection of Veneto)

2007-09 Technical-scientific support (in group with Sintesi Srl, Consorzio Priula and Scuola Agraria del Parco di Monza) in the research activity relating to the technical-economic analysis of integrated waste management and specifically I The activity envisaged the adaptation of the software patented by ESPER to the objectives of the project for the creation of a simulation software for the technical-economic analysis of the management of RUs, validated and verified by the ARPAV of Veneto on behalf of APAT (now ISPRA)

Customer address: **Via Baciocchi 9 31033 Castelfranco Veneto TV Tel 0423-422311**

Reference: **Dir. Waste Operations Unit Dott.sa Lorena Franz**

ASIA Spa of Naples (entirely public company):

2008 Technical support for the drafting of the executive project of door-to-door waste collection in various districts of the City of Naples, supply of the license to use a calculation model patented by ESPER to evaluate the different types of service and the scenarios any service in the territories subject to experimentation and finally planning and supervision of the communication activities that accompany the launch of the services.

Customer address: **Via Volpicella, 315 - 80147 Naples Tel 081-7351585**

Reference: **RD Division Director Ing. Michele Petrone**

ATO (Optimal Territorial Authority) for the management of the RU of the Province of Piacenza

2008-09 Technical support in the implementation of urban waste management systems with the door-to-door system and incentive tariff for waste collection in the Piacenza ATO support to Sintesi (responsible for the operational part of field data collection, with research activities and at the client's premises) through the indication of the parameters to be found for the functioning of the calculation engine patented by ESPER.

Customer address: **Via Giordano Bruno, 20/A - 29100 Piacenza Tel. +39 0523 356014**

Reference: **Waste Service Manager Arch. Enrico Menozzi**

Municipality of Mola di Bari:

2008-09 1st assignment - Design of a new home differentiated waste collection service for the City of Mola di Bari, drafting of the tender specifications and announcement.

2011-12 2nd assignment - Technical support for the launch of the new home service and complementary services

2012-13 3rd assignment - Preparation of the project for the implementation of incentive tariff for waste management and the improvement of the quality of the flows sent to the RD as well as the related request for funding from the Puglia Region pursuant to DGR n. 207 of 10/22/2012.

2013-14 4th assignment - Assumption of the task of managing the execution of the contract relating to the urban hygiene service for a period of 12 months.

2015 5th assignment - Renewal of the assignment of managing the execution of the contract relating to the urban hygiene service for a period of six months.

2015-16 6th assignment - Assumption of the task of managing the execution of the contract relating to the urban hygiene service for a period of 12 months.

2017 Management service for the execution of the urban hygiene contract and complementary services 2017
7th assignment. period 01/01/2017 - 30/06/2017
8th assignment. period 01/07/2017 - 31/12/2017

2018 Management service for the execution of the urban hygiene contract and complementary services
09th assignment. DEC assignment two-month period extension 01/01/2018 - 28/02/2018
10th assignment. DEC assignment two-month period extension 01/03/2018 - 30/04/2018
11th assignment. Service execution of services related to the correct management of support services, design, drafting of tender documents, management of the execution of the contract, to outsource the cleaning and removal service of the oceanic posidonia banquettes on the Molise coast and in particular for the performance of the services admitted to financing by the Metropolitan City of Bari for the project called "Intervention for cleaning and protection of the high-use coast loc. Water of Christ"
12th assignment. DEC assignment extension of six months period 01/05/2018 - 31/10/2018
13th assignment. DEC assignment extension of two months period 01/11/2018 - 31/12/2018.

2019-20 Urban sanitation contract execution management service and complementary services 2019 -2020
14th assignment: six month period (January - June 2019) 15th assignment. three-month period (July - September 2019) 16th assignment. period of two months (October-November 2019). 17th assignment. two-month period (December 2019 - January 2020), 18th assignment. two-month period (February - March 2020), 19th assignment. two-month period (April - May 2020), 20th assignment. four month period (June - September 2020), 21st assignment Three month period (October - December 2020),
22nd assignment Support to the RUP for waste removal intervention in coastal areas

2021 Management service for the execution of the urban sanitation contract and complementary services 20 21
23rd assignment. three-month period (January - March 2021), 24th assignment (April-May-June 2021)
